## Outer Shipping Labels Format Change

PCN: 32003

Published: 2016-09-12

---

**Type:** Shipping Labels Change

---

**Description:** Changing the format of outer EIA (Electronic Industries Alliance) shipping labels to accommodate longer barcodes. For example, marketing part numbers (MPNs) can now be longer because of the new barcode format. (See a list of all MPNs.)

**This applies to Micron standard shipping labels only.**

This formatting change will not affect the data on any current EIA labels. All current barcodes and human-readable data will still be provided on the labels; only the label format is changing.

Examples of the current and reformatted EIA labels are included in an attachment to this PCN.

---

**Reason:** Manufacturing Efficiency

---

**Product Affected:** All Micron products shipped with Micron standard outer box shipping labels.
