QUALITY

Data Sheet Update for several Diode types

Information Notification

The data sheets of several Diode types will be updated. The changes in the revised data sheets are merely editorial corrections. The products remain unchanged. There is no change of electrical and thermal specification limits.

The following data sheets will be updated:

BAV70 series
BAS40 series; 1PSxxSB4x series
BAV756S; BAW56 series

The changes are:

The statement "AEC-Q101 qualified" is added to the section "Features and benefits"

The section "Quality Information" is added (stating that the devices are qualified according to AEC-Q101)

Update of the section "Legal Information"

Why do we issue this Information Notification

"AEC-Q101"-statement was missing in previous data sheets. The section "Legal Information" is brought up-to-date.

Impact

There is no impact to the products' functionality.

Data Sheet Revision

A new datasheet will be issued

Contact and Support

For all inquiries regarding the ePCN tool application or access issues, please contact NXP "Global Quality Support Team".

For all Quality Notification content inquiries, please contact your local NXP Sales Support team.

For specific questions on this notice or the products affected please contact our specialist directly:

Name GA Customer Support
e-mail address DiscrQA.Helpdesk.GA-Products@nxp.com

At NXP Semiconductors we are constantly striving to improve our product and processes to ensure they reach the highest possible Quality Standards.

Customer Focus, Passion to Win.

NXP Quality Management Team.

About NXP Semiconductors

NXP Semiconductors N.V. (NASDAQ: NXPI) provides High Performance Mixed Signal and Standard Product solutions that leverage its leading RF, Analog, Power Management, Interface, Security and Digital Processing expertise. These innovations are used in a wide range of automotive, identification, wireless infrastructure, lighting, industrial, mobile, consumer and computing applications.
